Universe to Equiverse:
Start the Ripple

theme

Background

The universe has evolved dramatically in terms of intellectual, material and physical prosperity. Sadly, the growth has not been balanced for all, particularly between the genders.

How do we then build a new universe that is more equitable - an Equiverse?

Each year we have dared to dream of a new world order that is more balanced, more compassionate and more progressive.

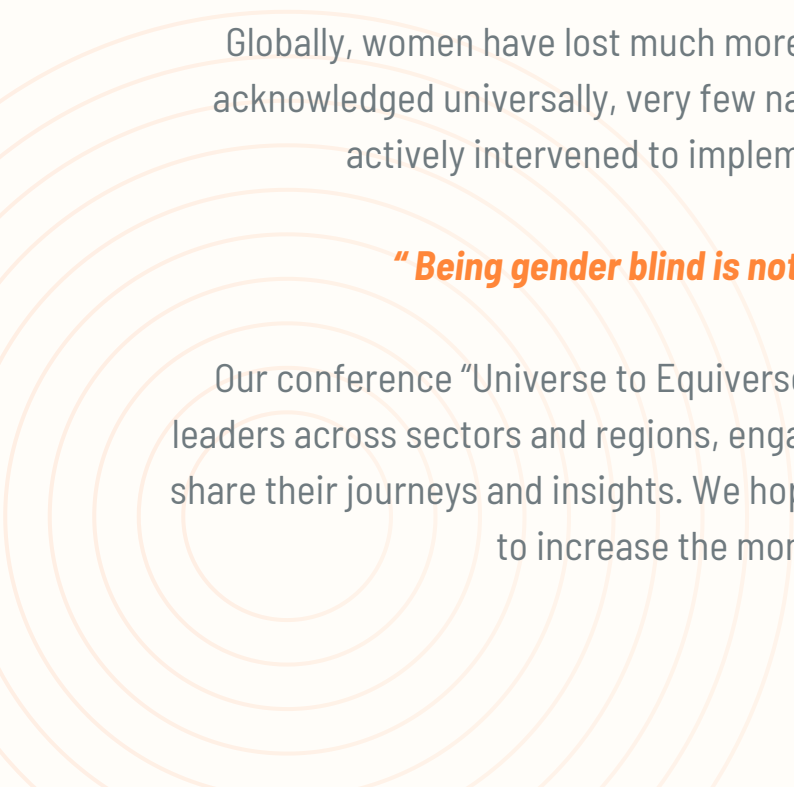

This year at TalentNomics' 6th Global Conference, we will explore how each of us can be change agents for such a world and every participant can be ***a ripple of change.***

Purpose

Globally, women have lost much more due to the pandemic. Though this is acknowledged universally, very few nations, organizations and leaders have actively intervened to implement women specific policies.

“ Being gender blind is not being gender equitable ”

Our conference “Universe to Equiverse” endeavors to provide a platform for leaders across sectors and regions, engaged in empowering women to come and share their journeys and insights. We hope to build bridges between such leaders to increase the momentum of change.
